Living, learning and  
leading together.

### MISSION

Our mission is to work in  
cooperation with the  
community and families to  
provide students with an  
education that promotes  
responsible citizenship,  
develops critical thinking,  
communication, collaboration  
and creativity.

## ANNUAL AHERA NOTIFICATION

This notification is to notify all parents, teachers, building occupants and employee organizations.

Our schools that contain asbestos in some building materials are managed by the Asbestos Hazard Emergency Response Act, which requires schools to be inspected by an Indiana Department of Environmental Management accredited asbestos inspector. The inspection is required every three years with six month surveillance inspections. The last inspection was carried out 2/11/2020. After the inspection was complete it was determined that the asbestos building materials located in some schools is in good condition and is in a non-friable condition, no action required at this time.

The law further requires that an Asbestos Management Plan be in place for each school that contains asbestos building materials to be on file at the school administration office and in each school's main office for review upon request. The Richland-Bean Blossom Community School Corporation has had asbestos management plans prepared for all school buildings in the district. These plans are available for your inspections Monday through Friday during regular school days and normal school hours at the School Service Center and with five days' notice, Monday through Friday at each school office.

Construction is slated to take place in our buildings in the years 2023/2024.

Mr. Arnold Caldwell  
Maintenance Director  
RBB's designated person for Asbestos Management
